DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because figures 3-6 are deemed informal drawings. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: on page 8, lines 18-20, phrases of "external *reference resistor* 316" are suggested to be changed to -- external *configuration registors* 316--, respectively, in order to be consistent with element "config registers 316" shown in figure 3.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-17 are allowed.

Conclusion

4. This application is in condition for allowance except for the above formal matters

Prosecution on the merits is closed in accordance with the practice under *Ex parte*Quayle, 1935 C.D. 11, 453 O.G. 213.
